

Dear UCPB Client:

We wish to inform you that Philippine banks started implementing in September 2010 the new standard format for the dorsal portion or the backside of checks .

The Philippine Clearing House Corporation mandated the use of this new format to ensure that the information printed, written or stamped on the back of checks can be read easily, thus preventing fraud or misinterpretation. With the implementation of the new format, banks will no longer accept checks with the old design by September 2011.

Space for PCHC Tracer Band		Do not Write Beyond This Point (Reserved for PCHC Use Only)	DRAWER'S ACCOUNT NUMBER	PAYER'S ACCOUNT NUMBER	PAYER'S BANK/BRANCH/ACCOUNT NUMBER
Space for Bank Guarantee Stamp	Space for 2 nd Presentation Stamp				
Space for Other Details					

In this regard, we advise you to make sure of the following:

1. that you use up all your old checks before September 2011;
2. that if you are writing post-dated checks for September 2011 and beyond, these should be in the new format;
3. that if you receive post-dated checks for September 2011 and beyond, these should also be in the new format.

All newly issued UCPB checks already conform to the new format. You may order these from your maintaining UCPB branch, or through the UCPB ATM, UCPB Connect and UCPB.biz.

For your information and guidance. Thank you
