

## Customer Service Advisory

August 2011

### **Attention: Checking Account Holders**

**(Multi-One, Regular Checking Account and PERKS Account Client)**

**Effective September 1, 2011**

Due to the success in compliance of banks and the public in using checks with the new dorsal format and to address the public's clamor to exhaust printed checks with the old dorsal format, the Philippine Clearing House Corporation issued CHOM No. 11-451 that states:

“2.1. Cheques without the new dorsal format shall be allowed to circulate until they are fully phased out.”

For UCPB's current account clients, you may still use your old check stocks until these run out. Please note however, that all checkbooks issued by UCPB since September 2010 are already compliant with the standard check dorsal format that conforms to the PCHC ruling.

Should you need more information, please call your nearest UCPB branch or the UCPB Customer Relations Center at 811-9111.

For your information and guidance.

Thank you very much.
